tinued to keep up. It looks as if some thing like this would have to be done, judging from the way the races have been patronized this season. Last night was another record breaking crowd and they were given a good evening's sport to warrant it.

The feature was the ten mile motor race between Hofman and Hopper, two of the saucer's most popular riders. The riders tossed a coin for the choice of motors and Hofman won. To this fact can be attributed his winning the race. The Los Angeles boy secured the machine known as the Chapman motor and firmly tucked on behind this powerful pacing machine he secured all the best of the pace. Hopper won the toss for position and taking the pole held it for two miles, when Hofmah with a burst of speed took the lead away from him. They remained in these relative positions until the end of the race. Twice Hopper came up from behind with a rush, but his machine could not carry him fast enough to go around the Los Angeles boy. On one occasion, Hopper dropped his pace while riding high on the bank, but regained it again before going a quarter of a lap.

Not a Popular Candidate.

(Philadelphia Ledger.) While the 4 o'clock train was pulling ut of Philadelphia last election day, out of Philadelphia last election day, a dispute arose among the passengers as to who would be elected governor. One man stoutly maintained that Pattison would be elected, while another said Pennypack, er would receive an immense majority. An Irishman on the train offered \$25 on the first named candidate.

"You're both mistaken," said a religious looking man after the discussion had gone on for some time, "Pattison will not be elected governor; neither will Pennypacker."

ATTACKED YOUNG GIRL.

Marriott Woman Assailed by Masked Man.

Man,

An awful story has been reported to the sheriff from Marriott, a settlement about five miles out from Ogden. The victim is a young woman, who is a recent graduate from the county schools and a member of one of the best known families in the county. The girl is 19 years of age and a cripple. Last Saturday she went out in the field to milk a cow. Toward dusk she returned to drive the cow in from the pasture, and while passing a clump of willows she was suddenly seized and pulled in amongst the brush by a man wearing a black mask, who evidently had been lying in wait for her.

Her cries were stifled by the hands of her assailant. Although she made a desperate resistance the girl was overpowered. After his departure the girl made her way back through the darkness to her home.

The narents reported the affair to Sher-

New Use For Gypsum. (Reno Journal.)

(Reno Journal.)

Lieutenant Governor Allen said that he had kept his eye on a field at Clark's station where alkali seemed to be the principal crop for many years past. He noticed a big improvement and asked the owner how it happened. He was told that ground gypsum had been used and that the alkall had disappeared. Now Governor Allen says one of his reasons for going to Mound House is to look into the gypsum quarry and to use some of the product in Churchill.
